

Measure a ring you already own

Print this document on A4 paper and make sure you do not have 'Fit to page/printable area' selected.

Choose a ring you already own and place it over the sizing circles until you find a circle that aligns with the inside edge of your ring.

Measure your finger to find your ring size

Cut-out the sizer image below and cut a slot as indicated

Place the sizer around your finger and insert the end through the slot made previously

Pull the end of the sizer until you feel it is comfortably around your finger and then read the letter that the arrow is pointing to, for your ring size.

Make sure not to pull the sizer too tightly around your finger. Make sure that it can comfortably slide over your knuckle.
